

Communications Services

Through proven engineering, planning, construction, and system integration services, Henkels & McCoy (H&M) safely provides comprehensive infrastructure services to wireline and wireless carrier customers within the communications industry.

H&M works with clients to develop, design, construct, and install future-ready networks that best fit their needs. H&M personnel are consistently trained on the latest installation techniques and applications. H&M connects communications carriers, telephone companies, and wireless providers to their customers – and their customers to the world. H&M's work spans government agencies, educational institutions, large venues, businesses, healthcare companies, and more.

H&M has designed, constructed, and maintained successive generations of telecommunication networks for a wide variety of providers, and continues to support the most advanced communications networks in the country. The company is equally committed to completing cabling maintenance and repairs for customers throughout North America. With a large national footprint, H&M can complete projects quickly and efficiently, while meeting clients' construction and engineering needs.

Wireline

- Overhead and Underground Cable Construction
- FTTH/FTTX Deployment
- OPGW/ADSS Cable Installation
- Conduit and Manhole Systems
- Structured Cabling – LAN, PON, Data Centers

- Pole Removal/Replacement
- Make Ready Engineering and Construction
- Splicing, Testing, Turn-up
- Feasibility Studies and Financial Projections
- Design and Planning
- Project and Construction Management
- Service and Maintenance
- Emergency Restoration and Storm Remediation

Wireless

- DAS/iDAS
- Small Cell Deployment
- Fiber Backhaul
- Testing and Turn-up
- Site Engineering
- Design and Planning
- Permitting
- Project Management
- Service and Maintenance
- Emergency Restoration and Storm Remediation

Commitment to Safety

Henkels & McCoy (H&M) extends safety to every aspect of work. Safety drives the development of impeccable work practices and is at the core of the way behavior is observed, communicated, and investigated. H&M follows a daily safety management system of leading and lagging indicators, including coaching observation trends, work site audits, good catch and near miss reports, corrective action follow-ups, total recordable incident rates, days away, and restricted duty and transfers. With these indicators, H&M performs trend analysis and program validation of safety performance. This vigilant evaluation and implementation of company and industry-wide best practices ensures H&M maintains the absolute highest safety standards to protect our workers, our clients, and the community. H&M's daily mission is to ensure "Nobody Gets Hurt!"

About

Henkels & McCoy is an industry-leading utility construction firm providing critical infrastructure design, construction and maintenance services for the power, oil & gas pipeline, gas distribution, and communication markets throughout North America. Founded in 1923, Henkels & McCoy adapts over 95 years of experience to the dynamic and evolving infrastructure needs of today. Henkels & McCoy has been recognized with an E. I. DuPont Safety Excellence Award and is a founding member of the Electrical Transmission & Distribution Partnership, a collaborative industry partnership working to reduce fatalities, injuries, and illnesses in the electric line construction industry.
